JUN 10 1927

Dear Sir:

I have recieved your letter of June 8. and now am telling you that just aslong as you will settle this trouble of water up I ~~and~~ am glad and satisfied to pay what you say.

I want you to see about the gravel spring because I have been there with the Engineer you sent.

You know that crystal spring was mine in the first place and

through the case they
won it but as you
know now they are
trying to take my other
water and I am telling
you it is bad because
we are just I and my
Daughter and we can't
expect to go from one
place to another like men.
If you will settle about
the Gravel Spring then
I am in peace with the
wash ~~and I do not get~~
~~any~~ or else they trouble
me every day.
They have made a dam

a little below the Goat
spring and that can't
impossibly stay there
because the water rests
there and soaks in the
ground.

Yours respectfully.
Mary De. Marco
B 04 27.
