JUN 9 1927

Dear Sir:

I have written you two letters these days. and in one I made a mistake about the water I said that Elegonti had taken both the spring & wash but he had only taken the wash, and the nest was soaked in the ground. Excuse me for this mistake. and we did not see the water up above because I told you before why it is we can't go up. yours Truly

Mary Demarco
