Helper Utah
June 7-1927

Dear Sir:

I am letting you know that the day you came Eleganti took the water that some night. They also took it when it was their turn on Sunday. Monday they let it come to me and Tuesday they took it again. Please see what can be done. I have a man that is working on my farm and each day I have to send him up to the spring

to be sure if the
water ~~has~~ broke the
ditch or if Elegonti
has taken it and it
is her the one.
I have this man and
I can't expect to always
send him up there and
he can't do no work
on the farm. Please
make them stop it
seems that they do not
even pay any attention
to you. neither, all I
want is to put a
stop to this meanness
because I haven't money

to spend for a man
on the farm and one to
go up and see about the
water everyday.
When I go up the
wash and see about
the water they say if
I pass there they will
shoot me. I can't stand
these things when I know
that the water is mine
and neither can I pass
in their land because
it is theirs and neither
in the wash and also
they put these fences
and I can't pass neither

so what can I do.
youse know that the
case which was made
was for the crystal
spring not for the
wash and Goat spring
you know yourself
the water is mine, and
I should have my rights.
The only little water
I have now is the one
of Goat spring and it
is not even $\frac{1}{5}$th enough
for my farm. Until
today 12 Trees have
dried up for want of
water I do not ask
the use of any one else's
water I just want my
~~one~~ own, and with having
~~my~~ the water I can't use

it ~~the~~ and my form
has to dry. and the
little water from Goat
spring does not even
reach half way down
the form because it
soaks in the ground.
Nothing more to say
please do your part.
yours Truly
Mary De Morco.
