RECEIVED
APR 9 1928
State Engineer's Office

Mr Geo M, Bacon
State Engineer's Office
Salt Lake City.

Dear Sir, Your letter of Apr 4th to Mrs A J Denny received, I am writing to say there is every reason why Mr F.J. Weber should Not be appointed commissioner of water on Boul Creek

Mr Weber proved ~~that~~ he had no regard for truth when he perjured himself in his affidavit that the water didnt reach a certain point the exact details ~~of~~ which you have on file in your office.

Mr Hall and Mr Don McDougall went and saw that the water had been within 1½ miles of Halls land, I might state here ~~that~~ Mr Weber didnot show us ~~the~~ said affidavit we saw it first in your office

Mr Hall and Mrs Denny left here two days ago with a car load of seed, shrubery,

grape vines etc, and it will mean no water for us again if Weber is appointed Commissioner Mr Weber is a semi invalid any way and could not do this work satisfactory, in fact his neighbors often refer to him as the ground hog as he gets around so little. How could he follow the water course when there is no road and the water flows down thru a rough Canyon. We could hardly be expected to pay for the services of a person in whom we have so little confidence

Now Mr Johnson is also a stranger to us. We have met him and liked his appearance, and on inquirie (at Victor his former home) we are assured of his honesty and integrity.

The fact that Mr Johnson is a stranger to all parties would render him more able to make an honest and unbiased devision

In your letter you refer to the two water users. I would respectfully call your

attention to the fact that there are three water users: Columbus R Hall, Roxanna D. Hall and Vern W. Pace and as you know the majority of the water users have the right to ~~consideration~~ consideration in the selection of a comissioner, So far as I am concerned I positively refuse to accept Mr Webers appointment as Water Comissioner for Bowl Creek and I know Mr Hall is of the same opinion

Very Respectfully

Roxanna D Hall

P.S. Mr Johnson is now living in Hanksville.

R D H
