Loa, Utah, June 25th 1927

To the State Engineer
of Salt Lake City, Ut.,

JUN 28 1927

To Whom It May Concern:

This is to certify, that I, F. J. Weber of Hanksville, Wayne Co., Utah, was requested by V. W. Pace and C. R. Hall on June 20th 1927 to go with them to the point of diversion of Bowl Creek, about 4 miles southwesterly from Pace's Ranch, there to make a estimate of the amount of water and adjust said flow of water to the best of my judgment, according to their respective claims of water rights now on file in the office of the State Engineer of Utah; that I responded to the request and submit herein my unbiased report on this matter as follows:

I find that there was on the above mentioned date, at 2 P.M. at the point of diversion, approximately a flow of 4 second feet of water.

Further, that by mutual agreement of both parties herein concerned we constructed a weir to properly distribute their water as claimed.

One discharge, with a crest of 2 feet, flowing water 8 inches deep down a dry creek bed for a distance of about 15 miles to be utilized by C. R. Hall on his holdings.

3.43 c.f.s.

The other discharge, with a crest of one foot, flowing water 4 inches deep, for a distance of 4 miles to be utilized by V. W. Hall on his ranch. Pace

Again, three days later on June 23rd, at 5 P.M. I find that the entire flow of said water as herein referred to was consumed 4 miles above C. R. Hall's place.

that about 5 miles above Hall's place a small stream, measuring one foot crest, 1/2 inch deep.

that about 7 miles above Hall's place, a flow of water, measuring one foot crest and 2 1/2 inches deep.

And further, that I believe that double the amount of water should be necessary to reach said ranch at this time of the season.

In Witness whereof, I have hereunto set my hand and seal this 25th day of June 1927.

F. J. Weber

Witness:
Tiza Hansen
State of Utah
County of Wayne

Subscribed and sworn to before me this 25th day of June 1927

Elsie Eckersley Clerk
By Geo J. Eckersley
Deputy Clerk.
