Cainville Utah May 10 — 1927

Mr Geo M Bacon
State Engineer Salt Lake City Utah

Dear Sir

I have just been handed by Mr Columbus R Hall your letter with regard to my appointment as water commissioner on Bowl Creek and he wishes me to reply.

Now as to the ammount of assesment to levy depend entirely on the parties concerned if one trip to Put the Gate would be all that is necessary it would not require a heavy assesment but if several trips is to be made it will require more. I would to assess about $100.00 One Hundred Dollars this ammount would about three trips.

Hoping this is all the information you need I remain

Yours Very Truly
Alfred Ostberg
