Hanksville Utah
April 19, 1927

Mr George M, Bacon State Engineer
Salt Lake City Ut

Dear Sir;

Mr Reckel has moved away from this place, Therefore we will recomend mr Alfred Ostberg of Cainville to act as water Commissioner on Boul Creek, I have consulted with him as to compensation for this work, he will do it for $5.00 per day and 12½¢ per mile for going and coming or what ever is costomary to pay for this kind of work, until oct 1st 1927 or longer if necessary. of course the water might fail to last that long. therefore it would not be necessary for him to make the trips until that date, and we would like for you to insist on him making these trips there and back in one day after the dividing device is put in. that would save effence as the distance is about 34 miles. Very Respectfully

Columbus R, Hall
