Cedar City, Utah
June 24-1943

Mr. Edw. H. Watson,
State Engineer, SLC.
Dear Sir:—

RECEIVED
JUN 26 1943
State Engineer's Office

About Mar. 21, 1928 an application was received by the Coal Creek Irri. Co. of Cedar City, from Mary M. Bulloch to transfer to it in exchange for 50 shares of 4-A capital stock a like number of 4-a shares that had been acquired by John P. Nelson thru the Union Field Ditch Association (unincorporated) Mr. Nelson deeded same to Mrs Bulloch and she in turn deed to the Coal Cr. Irri. Co. Coal Creek I. Co. issued stock certificate Oct. 17, 1928. The certified copy of court decree supplied by your office to Coal Creek Water Commissioner J. J. Leigh shows a reduction in the Union Field allotment of 50 share of 4-A water but does not indicate to whom it was transferred. We would appreciate having the record show its transfer to

(2) the Coal Creek Irrigation Co.

Another matter: I was advised a short time since that the Washington County Recor carried a Notice to Water Users of a request by Leroy A. Wilson for an extension of time, etc., of his application to appropriate 20 sec. ft. of water from Coal Creek for industrial purposes. Hearing was to be held at City Hall, Cedar City, June 18, 1943, at 1 P.M. As Pres. of C.C. Irri. Co. I decided to attend. I arrive late — about 2 pm. I could find only one person in the Bldg — the J.P. He was sure there had been no meeting.

Wilson's claim or representation that he had spent $3500.00 is a myth for which he should be scalded to say the least — and exposed if he persists.

Don't grant it.

Respectfully J. S. Woodbury
Pres. Coal Cr. Irri. Co.
