

MEMORANDUM

TO: Lee Sim
FROM: Clark C. Adams, Southwestern Region
DATE: March 3, 2003
RE: North Creek (77-area) Distribution

I received a phone call today from Clark Smith from Beaver in regards to the distribution of water along North Creek. Apparently during the annual distribution meeting last week you were asked about a letter sent to the State Engineer in regards to North Creek.

Attached to this memo is a copy of that letter that Mr. Smith wrote. The original was sent to your office last August when we received it. Also attached is another letter that this office sent to the North Creek Irrigation Company and the Westside Irrigation Company regarding the distribution of water between these two companies based on the Beaver River Decree.

I hope that this clears up some of the questions that you were asked at that meeting.
