June 9,1934

Mr. Reed Lancer,
Moab, Utah.

Dear Sir:

RE: PACK CREEK.

I am informed by Mr. Wayman that he met with the Water Users on Pack Creek who are favorable to your appointment as Water Commissioner, and therefore delivered to you your commission.

I have received from Mr. Dalton this day your bond in the sum of $1000.00.

It is understood that you will look directly to the water users of Pack Creek for payment of salary and expenses in connection with this work and that it will be without recourse to this office.

I shall expect an occasional report from you as to how you are getting on, and if I can be of any assistance to you please advise me.

Yours very truly,

T. H. Humpherys,
STATE ENGINEER.
