MILKING SHORT HORNS COTSWOLD SHEEP

CRESCENT FARMS

CHESTER H. HARTMAN & SONS

MT. EMMONS, UTAH May 17 - 1945

Ed. A. Watson State Engineer
Salt Lake City, Utah.

Dear Sir:-

In making reply to your letter of May 11th. wish to state that owing to the fluctuation of the Sand wash stream and there being no meaneuring devices on the stream it seems to me that it would be impossible for any one to give satisfaction in distributing the water.

As to Mr. R. P. Hambleton he is a young man and I am unacquainted with him so am not in a position to pass on his qualifications.

Very Truly Yours
Chester H. Hartman.
