Ioka Utah
March 8, 1945.

Ed. H. Watson State Engineer
Salt Lake City, Utah.

Dear sir:-

The Sand Wash Board instructed me to write and ask that you appoint a water commissioner for the Sand Wash this season, because there are places above that take the water, so it cant get down to us.

Mr. D. P. Hambleton address Upalco Utah would take it at $5.00 per day for the time he puts in on the job. He would be satisfactory with us.

Please let us hear from you, and if there is any more we need to do to get one appointed.

Yours truly,
Sand Wash Irrigation Co.
Archie Benson Secty.
