RE: **SEAA 1070: Meter Required on Well
Completion Record as of April 24, 2006**

TO: PATRICK & KATHRYN YARDLEY

On July 19, 2004, the State Engineer initiated the referenced agency action and sent you a notice of the statutory requirement to install and maintain a measuring device on the well associated with Water Right 77-1845 (a26954). That notice required installation of a metering device prior to August 20 2004. Records on file indicate required meter was installed approximately 12 October 2004. As of this date (May 12, 2006), there are no filings for additional rights in this well. This is a stockwatering well, not to be used for irrigation purposes according to our files.

Since a suitable measuring device has been installed and was recently verified by the Regional Engineer as required, the subject agency action can be formally concluded. Your efforts to comply with the order are commended and appreciated. Ron Roberts, the Beaver Water Commissioner will be periodically taking readings on this well.

Thank you for your cooperation in attending to this matter in a timely manner. If you have any questions concerning this notice, please contact Mike Silva by phone at 801-538-7430 or by email at MikeSilva@Utah.Gov or Kurt Vest, acting Regional Engineer, by phone at 435-586-4231 or by e-mail at KurtVest@utah.gov.

Sincerely,

Mike Silva
Distribution Engineer
