RE: **SEAA 1071: Meter Required on Well
Completion Record as of April 24, 2006**

TO: RAY HARRIS

On July 19, 2004, the State Engineer initiated the referenced agency action and sent you a notice of the statutory requirement to install and maintain a measuring device on the well associated with Water Right 77-11603. That notice required installation of a metering device prior to August 20 2004. Subsequently a Cease and Desist Order was sent on August 27, 2004. Records on file indicate that a meter was installed and was in compliance on or about August 31, 2004.

Since a suitable measuring device has been installed and was recently verified by the Regional Engineer as required, the subject agency action can be formally concluded, we are sending you this letter to document this. Your efforts to comply with the order are commended and appreciated. Ron Roberts, the Beaver Water Commissioner will be periodically taking readings of the meter on this well.

Thank you for your cooperation in attending to this matter in a timely manner. If you have any questions concerning this notice, please contact Mike Silva by phone at 801-538-7430 or by email at MikeSilva@Utah.Gov or Kurt Vest, acting Regional Engineer, by phone at 435-586-4231 or by e-mail at KurtVest@utah.gov.

Sincerely,

Mike Silva
Distribution Engineer
