Upalco August 14th 1928

Mr Geo. M. Bacon St. Engineer
Dear sir yours of the Eleventh Recieved
will say in reply that Mr. Marchant
your Commisioner has only Alowed me
one 15 Hour Turn since July 9th all
he does is to shut my gate down
and my Crop of Alfalfa has nearly
burnt up and its is a hard strugle
to Keep my Fruit Trees from drying up
I am hopefull that this Water question
can be settled Peaceably I believe that
the Court should handle the matter
and Decree the rights to those who
are Entitled to it and settle all disputes
the People above help themselves
and some of them below come up
and shut us off at all Hours
of the night so we are Trying
to get a share of it when we can
hopeing for a Peaceable settlement
I remain yours respectfully

Nathaniel J. Mitchell
