Upaleo July 23 1928

Mr George M. Bacon State Engineer
Salt Lake City Dear Sir
yours of recent Date came to hand
and in reply will say I have
a head gate in my Ditch
which comes out of the sand
wash but no measureing
device but will comply with
your request at once and put
one in. the sand runs so
bad that it is allmost im-
posible to controol the stream
it shifts first on one side
and then on the other and the
floods that comes down sweeps
out our Damn and fills our
Ditch with sand and we have
a hard time to Keep Every thing
in good Order but will do the
best we can Yours Respectfully
N. J. Mitchell
