Daily Discharge Sheet and Commissioner's Monthly Report-Form
MUDDY CREEK DISTRIBUTION SYSTEM
For the month of Sept, 1964

Natural Flow	Total ac.ft.	1	2	3	4	5	6	7	8	9	10	11	12	13	14	15	16	17	18	19	20	21	22	23	24	25	26	27	28	29	30	31	Total c.f.s.
Muddy Creek at 12.5 weir																																	
Independent Canal Par. Flume 20%																																	
Emery Canal 80%																																	
STORAGE AND NATURAL FLOW																																	
Releases from Reservoirs																																	
4.0 ft. cip. weir																																	
3.0 ft. cip. weir																																	
3.0 ft. cip. weir																																	
Muddy R. at 12.5 ft. weir during reservoir releases																																	
River hold over stage (day before releases)																																	
Increase in River (Reservoir Water)																																	
Independent 4 ft. Cip. weir below Emery Canal Dam																																	

Went Fred to try to open it
Wired on Mountain to Utah Power Rec
it did Not
Rain this
Summer the
Reservoir
it off.
Spring made
Hard Sailing
Hard to open
it.
R. Hansen

got it opened and drain the Kirkland Dam
Rec trying to catch the Bears
