Civil Case 216

January 5, 1961

Mr. Homer Edwards,
Commissioner, Muddy Creek
Distribution System
Moore, Utah

Dear Homer:

Re: Muddy Creek Distribution System

Reference is made to your letter of January 4, in which you state you have not yet been paid the entire amount for your summer services.

We believe you should direct your request to the court, as the court retains jurisdiction as to the matter of assessments. It would seem that you have full right to receive total benefit for your services and that the court would order payment.

Any assistance we can provide in this matter, we will be happy to do so.

Very truly yours,

Donald C. Moreath,
Distribution Engineer

DCM:ek

Moore, Utah
Jan. 4, 1961

C. E. Erickson
Water Dist. Engineer
State Engineer's Office
Salt Lake City, Utah

Dear Mr Erickson:

As yet the Emery Canal Co. has not paid me for my services as Water Commissioner last summer. The bill for their share is $105.12.

To day I am writing to our attorney Duane H. Frandsen of Price Utah to petition the District Court to order payment. I have heard they do not intend to pay the bill.

Emery Canal Co claims they have been billed for

releasing etc. of reservoir water. But they have not. All work in releasing water from reservoirs has been paid by Independant Canal & Res. Co.

Independant Canal & Res Co wants a commissioner appointed for 1961. What ever assistance you ~~can give~~ or your office can give this matter will be appreciated.

With best regards to you all. Yours sincerely

Homer J. Edwards
