phone call then maybe letter or meeting

Winterwater taken

Lakefork Western I.C. (Bonita Flat).
stockwater had winter water rights since 1905?
problems now that storage had been built.
Sandwash etc - no winter water now
for ~~st~~ stock.

what happened to their winter and spring water.

was the FIRST DITCH OUT OF THE RIVER.

(35 cfs on 2450 acres.)
the only (?) filing on the river based on a cfs flow - others are AF/AC.

1910 Lake Fork Western Canal Co. with Moon Lake
1907 Pete ~~Lyndy~~ Madsen 10 cfs. - 280 days.
~~Bonita Flat~~
Bonita area.

signed over to Moon Lake
they were the first filings
South Bonita Brent Brotherson had a winter water filing which the storage has taken away.

have a hard time building up water in res.
~~maybe~~ most build up water in res. and
then take it in a week (storing a week then
taking flows a week etc.).

so they can do this.

Bill Christiansen ⇒ Commissioner
Lynn Winterton ⇒ Moon Lake Water Users.

~~Dan~~ They want their filings back.

problems of how Moon Lake ~~[illegible]~~ manages
the storage of the winter water in Moon Lake res.
~~of the reservoir~~
Feel like they are being discriminated against
in the operation of the system.

check into Moon Lake rights.

Big Sandwash
Moon Lake Res.

Dry Gulch Irrig. purchased a and has
moved pt. of diversion
above Lakefork Western without change
- priority probably should be changed.

~2 AF/AC filing
filing from a person
