Roosevelt Utah R.1
Mr Humpherys State
Engineer Dear Sir I am
writeing you for some
more information
and if you will Please
furnish it to me I will
apreciate it verry mutch
the Dry Gulch irrigation
co. tells me they have
made arangements
with Ira Bryant for one
second foot of water
from his Early filing
can they do that just
to come in head of
me and others up
hear on the uper End
of the ditch so when

the water gets low
they can clain Prior
rite. can they do this.
and how mutch water
does Ben G. Dyes filing
call for. it would be the
No 1106 aplication. he has
been irrigating about 200
acers with this filing i am
140 asking about.. So that
makes 2 important que-
-stions i have asked you
and if you will furnish
me with this information
i will grately apreciate
the favor and as to the
Dry Gulch Putting in my
head gate they started
over

to put it in and never
finished the job so I am
Earning all the water I
use getting it out.
well I hope I have
made it plain so you
can furnish me with
the information I ask-
ed for yours truely
Sam Snyder

Ps this is on the west
fork of Montez creek
