had been cemented.
the water would not
rea[illegible]
take it for what
it is worth,
and this gravel is
the only complaint
i had so if we rem-
-ind him how dry
and inviteing it is
to clean it out.
and if he will just
do that i will be Plum
satisfide. as this is
the main reason
for the loss of water
that i am complain-
-ing about so thanks
a lot for what

over

we have accomplished and good luck.
