Hon State Engineers
State of Utah -
Dear Sis.
I am Wrighting you to Try and fende out wheller theirs has bin eney thing dun about the Distributation of the Watters of Mantz Creek theirs was a move to apoint a man to attende to it but as yet I haven't Hearn of eney thing being dun I was up the Creek a few days ago and found the watter of the west Fork headed of by the Dry Gulch Irr Co their was no watter at that time theirs at that time but it was evident theirs had bin not long before.

July 8 - 31

it is Impossible for
Wattes to go down the
breek when there is Wattes
In it the Wattes in that
breek comees in Spells
or flushes at this time of
Yeas and it looks to me
like they should alow
a Partion at least to
go threw the structure
for those below at
all times.
I farthes think that the
Rights of the Dry Gulch bo
in Manty breek appeas
Rathes shady
Pleas let me Heas from
you and Oblige
Ella Bryant
also Ira S Bryant
