801-538-7467 (Fax)

NOTICE TO CEDAR VALLEY DISTRIBUTION SYSTEM WATER USERS:

Section 73-5-9, of the Utah Code Annotated, 1953, as amended requires that any abandoned wells be capped or plugged to prevent the wasting of surface or underground water. If you have a well which has been abandoned it is your responsibility as the well owner to see that the well is capped or plugged. This should be done in accordance with the well drilling guidelines established by the Division of Water Rights. A copy of these guidelines may be obtained from the Division.

We would hope that you would cooperate with this requirement without the need of an order from the State Engineer. If you have any questions, please contact Kerry Carpenter at (801) 586-4231 or Jerry Bronicel at 538-7382.

Sincerely,

A handwritten signature in cursive script, appearing to read "Lee H. Sim".

Lee H. Sim, P.E.
Assistant State Engineer
for Distribution
