June 22 - 1929

Roosevelt Utah. R R No 1

Mr George M Bacon

Dear Sir in reply to your letter of June 18 in regards to a water commissioner for Montez creek. I dont think it is Necessary. as I am on the west fork and there is from 6 to 10 secont feet passing my headgate all the time and the East and Middel fork has more than the west fork and I think every one in the district has more water than he can use if it isnt asking too mutch of you who made the request for a comanissioner. hoping thes meets with your approval. I yours truely

Sam Snyder
