Monticello May 4-36

Mr. L. H. Humphreys
State Engineer
Salt Lake City
Utah

Dear Mr. Humphreys:-

I am returning Application for bond.

Sorry I overlooked questions.

Mr. Humpreys. I observe that the Water Commissioner must be paid by water users and by May 1st of each year, since the amount of water that runs each year varies greatly and the trips made likewise varies. How would you go about to make a report until the work is completed? And should you not make report until end of season and the commissioner is not re-elected or sustained it seems to me he would be out. What would you suggest?

Sincerely Yours
D B Perkins
