ask many

at least in 1960 Lee Strong was comm.

Beaver River Problem

System has been in existence at least since 1906

1931 Decree.

↑ State Engineer Records dating back till then.

1982 - was the last time he prepared a comm. report

~~1983~~ early Beaver River reports - showed an assessment for ~~[illegible]~~ State Engineer Office expense. ($50 in 1930s & 1940's).

Water commissioner enforced collection of assess. - & delinquencies

1982 voting on River Commissioner was done by assessed units (not one user 1 vote) Strong won

2 other nominations

1983 - ~~[illegible]~~ can't find record of any minutes mailing list of water users invited to mating - copy of budget set up for 1983 etc. I thinks this is the year Jerry B. was handling things. Rick Hall's signature appears on doc. in 1984.

Maybe write letter to water users comm. - we want written report for 1989 season if Mr. Strong doesn't have time - they should hire a deputy to do it and be trained by Mr. Strong to eventually take over this duties.

1950 WALTER MACKERELL	1960 X	1970 X	1980 X
1 "	61 X	1 X	1 X
2 "	2 X	2 X	2 X
3 "	3 ?	3 X	3
4 "	4 X	4 X	4
5 "	5 X	5 X	5
6 X	6 X	6 X	6
7 X	7 X	7 X	7
8 X	8 X	8 X	8
9 X	9 X	9 X	

~~[illegible]~~ We used to type report for Beaver River System.

In 1983 Rick said no and Kent kept up that policy ⇒ suggested water users hire secretary but has not done it.
