Beaver Utah
April. 30, 1990

State Engineer
Division of Water Rights
Salt Lake City, Utah

Dear Mr Morgan-

The Kents Lake and Mammoth Canal board members have discussed this Assessment for 1990. Neither Kents Lake or the Mammoth Canal will get any water this year. We feel this money we're sending in, is nothing more than a gift.

To be right, the A Water Rights people and the ditches fed by Springs, and Minersville, should pay for the Commissioners salary, on this type of a year.

I know your office probably won't agree, but you now know our feelings.

Thanks

Sincerely
Evan Patterson
Sec. Kents Lake and
Mammoth Canal
