RE: East Union Irrigation Co.

Dear Mr. Jackson:

Since my May 31, 1973, correspondence with you concerning the East Union Irrigation Company I have had the opportunity to become totally familiar with the factual situation surrounding the East Union Irrigation Company request. I have met with my area engineer, Mr. Gerald W. Stoker, and have reviewed the report prepared by Mr. Clemont B. Adams in complete detail. Trusting that all of the figures contained in the report are true it appears to be an adequate representation of the surface and underground water rights and the deliveries of surface water to these rights. I have, therefore, concluded that the underground water right from the wells will consist of 1755.2 acre feet annually to be divided among the shareholders as follows:

<u>Share</u>	<u>Owner</u>	<u>Acres</u>	<u>Acre feet</u>
1/10	Dilworth Armstrong	43.88	175.52
1/10	Alan Garfield	43.88	175.52
1/10	Duard Schoppman	43.88	175.52
1/10	P. U. Webster Estate	43.88	175.52
1/10	Gail Maxwell (Garfield)	43.88	175.52
2/10	Norman Bulloch	87.76	351.04
2/10	Evan Matheson	87.76	351.04
1/10	Richard Williams	43.88	175.52

Mr. Joseph E. Jackson

It is my understanding that the individual owners may wish to transfer their rights to other parties to be used for housing developments. This office will accept change applications to do such, however, you should be aware that each change will be considered on its own merits and will be approved if it appears that direct interference with other rights will not occur. Again may I say thanks for your patience during this period of time. If I can be of further assistance to you, please let me know.

Yours truly,

DEE C. HANSEN
State Engineer
