Mr. Hubert Lambert
Utah State Engineer
State Capitol
Salt Lake City, Utah

re: East Union Irrigation Company

Dear Mr. Lambert:

Consistent with the review held by representatives of the East Union Irrigation Company and Mr. Gerald Stoker of the Cedar City Office of the State Engineer, we enclose herein the latest report compiled by Clemont B. Adams, Water Commissioner for the area concerned, and the original of an Agreement signed by the individuals and stockholders involved in the East Union Irrigation Company.

We have been advised by Mr. Gerald Stoker that you have reviewed this proposal and have indicated that you are receptive to an adjudication wherein the rights of these various parties will be adjudicated and that said adjudication will permanently establish their respective rights as to the surface and underground water.

We are mailing a copy of the Agreement and the enclosed report to Mr. Stoker, and by the terms hereof requesting that the State Engineer's Office act upon this matter at an early date, if possible. In the event your office requires additional information, please feel free to contact our office.

Very truly yours,

Joseph E. Jackson
