Subject: **MEASURING DEVICE NOTICE**

Dear Marc,

I am the Distribution Engineer for the East Virgin River, I work closely with the East Virgin Water Commissioner. This letter is to advise you that there is an outstanding requirement to install two measuring devices on the river, one below and one above your property. These devices are now required to be installed and are necessary for the water commissioner to measure and regulate water on the East Virgin River that runs through your property.

I will be in the Long Valley area and inspecting property and ponds on August 26-27th 2008. It would be beneficial for us to meet there to further discuss these requirements.

On numerous occasions I have attempted to contact you but I have been unable to reach you since it appears that your address has been changed. When you receive this letter, contact me immediately at 801 538-7430, and provide up to date contact information and to schedule an appointment with this office.

I can also be reached at 801 540-0388 while in the field, if I do not answer, be sure to leave a message on how you can be reached.

Sincerely,

Mike Silva
Distribution Engineer

Cc: Gerry Hoyt
East Virgin Water Commissioner
