Dear Mr. Morgan:

Attached is a copy of a letter we sent to the City of Glendale, Utah. It expresses our desires regarding the solution to the water problems caused when the City of Glendale drilled a well below our property.

The Mayor of Glendale, Eric Brinkerhoff, informs us that they have hired an engineer to help them resolve the problem. They are also trying to come up with the money necessary to cover the cost of plugging the well. We feel that this procedure (plugging the well) is the best long term solution.

Sincerely,

Harry Barth Palmer
