Mr. Guy Taylor, Owner
Guy Taylor and Naomi Taylor Family Trust
HC 63 Box 40
Duchesne, UT 84021

Dear Mr. Taylor:

RE: Water Right No. 43-2348 (A2024),
Certificate No. 812

This letter is in response to your letter dated March 7, 1994, wherein you state your objection to the delineation of water rights under the above referenced application and certificate. We are not adjudicating the water rights at this time. However, we offer the following explanation of our interpretation of your right for distribution purposes.

According to Certificate No. 812, the water right is for a total of 104.9 irrigated acres with the breakdown as follows:

35.71 acres in the NW1/4 SW1/4, 40.00 acres in the SW1/4 SW1/4, and 29.20 acres in the SE1/4 SW1/4, all in Section 12, T3S, R5W, USB&M.

When you purchased the land, you were deeded the S1/2 SW1/4 of Section 12, T3S, R5W, USB&M. The Warranty Deed also specifically stated "Together with all water rights shown in Certificate No. 812 of the Murray White Canal, pertaining to said property. (eighty (80) shares)". The portion of Certificate No. 812 which pertains to the 80 acres you purchased is 69.2 acres (40.00 acres in the SW1/4 SW1/4, and 29.20 acres in the SE1/4 SW1/4 all in Section 12, T3S, R5W, USB&M).

According to the records of the State Engineer's Office, you transferred 1.00 acre of this right to Brad Taylor and you currently own 68.2 acres of Water Right No. 43-2348 (A2024), Certificate No. 812.

Therefore, the Water Commissioner will be instructed to deliver your portion of Water Right No. 43-2348 (A2024), Certificate No. 812 based on the irrigation of 68.2 acres and Brad Taylor's portion based on the irrigation of 1.00 acre.

Sincerely,

Lee Sim, P.E.

Assistant State Engineer
