63 West Main  
Vernal, UT 84078

Dear Mr. Reichle:

This letter is in response to your letter of August 15, 1995 to Mrs. Charman Justice, Water Commissioner, whereby you requested that your 50 shares of Mosby Irrigation Company water be delivered to you.

In the past, the Water Commissioner has been instructed not to deliver water for which there is no established right-of-way. The right-of-way issue between you and Raymond Murray has been a continuing problem for many years. We feel that this is a private problem and do not understand why the problem has not been resolved.

In the future, the Water Commissioner will be instructed to deliver the water at the headgate as the Mosby Irrigation Company directs. It will then be up to the users on the ditch to divide the water once it has been diverted from the stream channel into the ditch.

Very truly yours,

Robert W. Leake, P.E.  
Regional Engineer
