RE: Duchesne River Study

Enclosed is a copy of a letter from the Regional Solicitor's Office concerning your study of the Duchesne River. You will note that Mr. McConkie suggests that you incorporate a study of water quality along with the other facets of your on-going study. I don't know how this situation fits into your program, but if you do not feel this can be done, I think we probably should meet with the federal people and explain why not so they are not simply left with the impression that they will be getting some information on water quality at the end of the year.
