RE: Arthur E. Reichle Mosby Water Rights

Dear Mr. Leake:

As a stockholder in Mosby Irrigation Water since 1972, of 50 shares of water, I am asking you to perform the duties of your office, by informing Mrs. Robert Justice, who is paid as designated ditchrider, to perform her obligations. For your information, I have absolutely no intention of losing my fair share of water.

You will recall that I paid you a visit last year, when the same ditchrider, whose name is mentioned above, took it upon herself to inform my caretakers, John and Pauline Lyda that I would not receive my water, due to the fact I had not paid my water assessment. Nothing could have been farther from the truth, because most stockholders are aware that they could lose their water allotment for failure to pay.

I wish to go on record by stating that your office should not permit my immediate neighbor, Mr. Raymond Murray, to dictate when I am to receive my 3 1/2 days of water. My previous instructions for 15 years, have been that I take my water after Mr. Murray receives his 18 Days. Is that not so? To date I find no problem with these instructions.

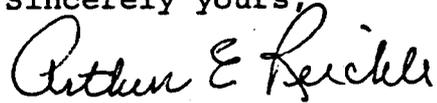

I have to wonder Mr. Leake, how you would feel had you been denied your fair share of water, as I was in 1987? Shouldn't we all be governed by the same set of rules?

It is also my opinion Mr. Leake that you are personally and legally liable should you fail to carry out the duties of your office. In the event that this last statement is in error, would you be kind enough to inform me, in writing, to whom I should communicate with so that I will have no further problems.

"when you meet a youngster without a smile • give him one of yours"

Finally, I wish to inform you that Mosby irrigation water has been running through my ditch, over my deeded property since May 21st of this year.

Sincerely yours,

Arthur E. Reichle
Owner
