

316
Vernal Area

M E M O: Deep Creek

By: Donald C. Norseth

* * * * *

A meeting was held to discuss Deep Creek Distribution in 1964 at the Lapoint Church, February 28, 1964. Those in attendance were:

STATE ENGINEER'S OFFICE

Donald C. Norseth
Hubert C. Lambert
Robert Guy
James N. Ward

REPRESENTATIVES OF DEEP CREEK

Ollie W. Justice	Chloe Johnson
Orlando Cook	Orson Johnson
Rulon H. Rasmussen	E. L. Mecham
Travers Nielson	C. R. Taylor
David Jenkins	Merrill Mecham
Reed McKee	Eldon Johnson
Farrell Simmons	Lyle Taylor
Mrs. Jim Frost	Glen Huber
Jim Frost	Louis Wooley
J. Floyd Perry	Marvin Huber
Pearl Martinsen	Roy Huber
Quince Johnson	

Past distribution was discussed and problems of more complete distribution were outlined. The problems discussed were:

1. Separation of transbasin water from natural flow.
2. Installation of diversion structures.
3. Consolidation with Vernal Area for distribution purposes.
4. Assessment on acreage basis.

A committee of three was selected from the Deep Creek users to consider these matters further:

1. Lyle Taylor, Route 1, Vernal, Utah
2. Ollie Justice, Lapoint, Utah
3. Roy Huber, Lapoint, Utah

This committee was given background material for distribution and asked to attend the Vernal Area Meeting March 9, 1964, and if possible, this area will be consolidated with the Vernal Area at that time. If arrangements to consolidate this system with the Vernal Area cannot be accomplished, the committee is to meet with this office and complete arrangements to operate separately.
