WATER RIGHTS
SALT LAKE

Mar. 18, 2005

Mr Jerry D Olds

Over the last 10 years I have had a problem with my water rights on the Gregory Basin: (Land description listed below.)

It appears that what was filed on from day one until now may not be the same as it was shown today. If it is possible I would like a summerized document what has taken place from 1900 filing till now. I have 286.7 acres of 1900 water rights, also 1910 and 1920 plus several supplemental rights.

Back 10 years ago Utah and Wy. users on the Beaver Creeks went to a 50 to 1 CFS. This was just a trial run. We are still on it. At the time we made this agreement there was no ifs ands or buts. Strickly 1 to 50.

Over the last 10 years I have received $1\frac{1}{2}$ CFS on my 1900 water 286.7 acres.

In the 2005 season if I can not have 1to 50 agreed on I want to do the same as the Burnt Fork Users are doing.

I would like a copy of the original agreement that was signed with all the Users signitures.

I will not be singled out to a separte agreement than the other users on th North Slope are tied to.

Giulio Foranini
