SUMMARY OF LEGAL ACTIONS 2000

WATER RIGHTS
SALT LAKE

Two Applications for new water appropriation were received by the Division of Water Rights which could affect water rights within the lower Jordan.

An application from Chief Consolidated Mining Company for appropriation of 29,000 acre feet of new water (#53-1459) was received. The Lower Jordan Water Users was represented in written protest, April 14, 2000 and in personal attendance at the hearing held September 14, 2000 by legal counsel, Jody L. Williams. No decision has been made by the Division.

Several applications (95) were submitted by Jordan Valley Water Conservancy District to appropriate 30,680 acre feet of groundwater from 344 shallow wells to be placed along the Jordan River in Salt Lake County. Approval of this application we believe would deplete flows into the river. A written protest has been filed by legal counsel Jody Williams. On further action has occurred.

No other actions or expenses were incurred this year.
