21st So. river control structure

Dear Mr. Johnson:

We wrote March 13, 1998 about our concerns regarding a new control structure for the Jordan River at 21st South which was to be installed. I discussed the structure built by Cap Construction with Mr. Lynn Jensen, Lower Jordan River Watermaster. Mr. Jensen indicated the structure was working as needed and that Cap had done a superior job.

We want to commend your department and Mr. Brent Beardall, with whom I discussed the need for no shutoffs of the water and the planned construction, for a fine job. Thank you.

Sincerely yours,

NEW STATE, INC.

Owen Kent Covey
