WATER RIGHTS
SALT LAKE

April 14, 2001

To Whom It May Concern:

Wednesday, March, 28, 2001, we made a request to the following water companies:

Walker Ditch Company
Tanner Ditch Company
Richards Ditch Company
La Caille Restaurant

To extend the date of water delivery from April 1, 2001 to April 15, 2001. Each agreed to that proposal and the time was extended. Then on Saturday, April 14, 2001 we again requested another extension for a few more days. No exact time or limit was set.

In doing so, we want it known as a matter of record, that this action does not, or will not affect the delivery date or quantity of water for the future, nor will it set any precedent for the future.

We appreciate the cooperation of those water companies involved who made this action to conserve water possible.

Please except our thanks.

Co Commissioners,

Tim O'Hara

Marv Widerberg
