Herriman, UT 84096-3878

Subject: Water Right 65-356 , Distribution Account 101215

Dear Zane:

At the annual distribution meeting held on February 2, 2011, the commissioner reported that he had investigated the ownership and water use under the subject water right. After discussion with Mr. Von Thomas, executor of the Lloyd Thomas Estate (previous account holder), you purchased the property associated with water right number: 65-3356. To the best of his knowledge, the water commissioner concurs with the former owner that you are the current owner of the water right.

Distribution Assessment Account No. 101215 on the Lower San Pitch Distribution System has been delinquent for a number of years and there is a current outstanding balance of \$88.13. This assessment account is for water use associated with Water Right No. 65-3356. The current owner of the property is responsible for the distribution assessment attached. Please advise our office if you have sold the property.

This outstanding balance must be paid in full in order to reinstate the water right in the distribution system assessment account. No administrative action may be taken on this water right until it has been reinstated in the distribution system.

Although we have updated the Distribution Account information, be advised that a report of conveyance may still be required to have the water right transferred into your name. The enclosed page contains more information concerning title transfers. If you have further questions you can contact me at 801 538-7430 or by email at [MikeSilva@utah.gov](mailto:MikeSilva@utah.gov)

Sincerely,

Mike Silva  
Distribution Engineer

Enclosed: Invoice.  
ROC Updates

Cc: David Beck, Water Commissioner  
Southern Regional Office, Richfield
