BRETT & DEBORA YARDLEY
PO 877
BEAVER UT 84713

Dear Mr. & Mrs. Yardley:

In March, 1994, a notice was sent to the water users in the Milford Area informing them that they could subscribe for the pitot tube measurement alternative prior to April 15, 1994. The wells to be measured by pitot tube needed to have appropriate ball valves installed on each discharge pipe so water flow measurements could be taken. UP&L release forms were provided to the water user to be filled out, signed and returned to the water commissioner by April 15, 1994.

Those requests were received and as per your request, measurements were taken on your well during the 1994 irrigation season by the commissioner.

The cost of the pitot tube service is \$25 per measurement per well. This notice of assessment is to inform you that the special assessment for the pitot tube service rendered by the water commissioner is due by January 31, 1995, in the amount of \$75.00.

Sincerely,

A handwritten signature in cursive script, appearing to read 'John S. Larsen'.

John S. Larsen
