SUBJECT: Russell Albrecht, Brett Yardley, and Gary Marshall Lawsuits
Milford Area Water Meter Order

On the basis of the field investigations which were completed this past summer, the following action should be taken on the lawsuits which were started last year:

Brett Yardley has not made any effort to meter his wells nor has he requested that his electric meter be used as an alternate method for measurement. The lawsuit should be pursued against him.

Russell Albrecht has metered the wells listed in the original complaint. There is some question whether he has ownership interest in other wells but they were not mentioned in the complaint and we don't have enough information to pursue the issue right now. The lawsuit should be dropped against him.

Gary Marshall sent a request to use the kwh meters on his electric wells, however, he has one deisel powered pump without a meter. The lawsuit should be pursued in connection with this well only. This is the well which is located S 1270 and E 1270 from the NW corner of Section 24, T 29 S, R 11 W
