Dear Jim:

Re: Commissioner Workshop

On February 27th and 28th, we will hold our annual commissioner seminar at the Division of Water Rights in Salt Lake City. Enclosed is a copy of the agenda.

Our goal is to provide training which will help improve the commissioner's ability to distribute water and operate the distribution system. We strongly encourage you to make provisions for the commissioner to attend. We also, invite you and/or any member of your distribution system committee to attend.

If you have any questions or need help with anything, please call me at 538-7384.

Sincerely,

Gertrudys B. Adkins, Ph. D.
Distribution Engineer
