**BEFORE THE STATE ENGINEER OF THE STATE OF UTAH**

<b>In Re: Unlawful use of water under          Water Right No. 71-3616          Howard Marshall</b>	) ) ) ) )	<b>ORDER TO NOT DIVERT          WATER FROM WELL FOR          IRRIGATION PURPOSES</b>
---	-----------------------	--

TO HOWARD MARSHALL:

For the past several irrigation seasons you have been ordered by this office to cease the irrigation from your well under Water Right No. 71-3616. Yet irrigation has continued. **You and any other person are hereby ordered again to not divert water from the well under Water Right No. 71-3616 for irrigation purposes.**

The valve which diverts water into the irrigation pipeline has been, or shortly will be, tagged by the duly appointed Milford Valley water commissioner. The valve now may only be opened under his direction as directed by the State Engineer. Should you or any person irrigate from the well in violation of this Order and the tagged notice on the valve, a Complaint will be immediately filed in District Court whereupon a court order will be obtained. Please govern yourself accordingly.

Should you wish to obtain water rights for the irrigation uses, or should you have any questions, please contact the State Engineer's Regional Office in Cedar City at 586-4231.

Dated this 31 day of March, 1999.

  
 Robert L. Morgan, P.E.  
 State Engineer
