October 30, 1998

James Mayer
PO BOX 829
Milford UT 84751

Dear Mr. Mayer:

This letter is sent to you to inform you that a previous letter sent October 9, 1998 from this division indicated, based upon aerial photography of the valley, that you were over irrigating by 62.09. Field investigation has found what was thought to be irrigated alfalfa as viewed in aerial photography was in fact not irrigated but was volunteer growth of alfalfa from the previous years irrigation. Therefore please disregard the previous letter and accept my apology for this error. Our records have been corrected to show that for the 1998 irrigation season, you were within the legal limits of your irrigation water rights. If you have questions or comments regarding the above, feel free to contact me at (801) 538-7431.

Sincerely,

A handwritten signature in cursive script, appearing to read "John S. Larsen".

John S. Larsen,
Water Rights Specialist III
