Mr. Donald Norseth:  
State Engineers Office.  
Salt Lake City, Utah.

At a meeting held the evening of Aug. 10th, 1960 to discuss the proposed articles of the Ogden River Water Users Association there was considerable opposition to the sentence in article #8 which reads as follows: to assess as may be necessary to prosecute the work of the association,. When the revised articles are wrote up I would like to authorize you to omit the sentence; to assess as may be necessary to prosecute the work of the association;.

Thanking you very much,

*J.M. Jones*
