Dear Ladies:

On June 1, 1987, you were sent notice that your Distribution account for the Mill Creek Distribution System was delinquent in the amount of \$571.16 for the years 1983 to 1986 and that an additional amount of \$111.22 is owed for 1987. This totals \$682.38 of which you were ordered to pay that amount by July 1, 1987 or the State Engineer would take action against you to forbid the use of water and take steps reasonably necessary to collect the amounts owed. These amounts have not been paid and the State Engineer is proceeding to take action as indicated.

You are hereby ORDERED to contact Mark Page of our Price Office at 637-1303 or Kent Jones of our Salt Lake Office (533-6071) within 5 days of the receipt of this notice to make payment or arrange for immediate payment of the amounts owed to the approval of the State Engineer or your water will be turned off. The State Engineer will forbid the use of water through the Distribution System until such time as the amounts owed by you are paid in full.

If you have any questions contact Mark Page or Kent Jones.

Sincerely,

  
Robert L. Morgan, P. E.  
State Engineer
