Moab, Utah 84532

Dear Emma & Janie:

At the April 15, 1987 meeting for the Mill Creek Distribution System, it was discussed that delinquencies existing on the distribution system accounts needed to be paid in full or the use of water would be curtailed and action would be taken against such delinquents to collect the amounts owed.

According to Section 73-5-1 of the Utah Code Annotated, 1953, as amended, states:

"The salary and expenses of such (river) commissioner... and such other expenses as are deemed necessary by the state engineer, shall be borne pro rata by the users of water from such river system... upon a schedule to be fixed by the state engineers, based on the established rights of each water user, and such pro rata share shall be paid by each water user to the state engineer in advance or before the first day of May each year, and upon failure so to do the state engineer may create a lien upon the water right affected by filing a notice of lien in the office of the county recorder in the county where the water is diverted, may forbid the use of water by any such delinquent, his successors or assigns while such default continues, may bring an action in the district court for such unpaid expense and salary, and may foreclose such lien..."

You are hereby noticed that your account with the Mill Creek Distribution System is delinquent to the amount of \$571.16 for the years 1983 to 1986 and that an additional amount of \$111.22 is due for 1987. That is a total of \$682.38 which is owed to the system as directed by law.

With this notice, you are given 30 days to pay the amounts listed and comply with the law or action will be taken against you to forbid the use of water and to take steps necessary to collect the amounts owed. The amounts owed should be paid by July 1, 1987.

If you have any questions, please contact Mark Page in Price, 637-1303 or Kent Jones in Salt Lake, 533-7228.

Very Truly Yours,

Kent L. Jones, P. E.
Directing Engineer, Distribution
