Re: WUC 75-40,60,61,1022,1425, Parowan Valley

Dear Mr. Bradshaw:

We haven't taken time to review the Parowan Valley Report but did pull the above numbered water user claims from the computer data base for review. We have attached a copy of that printout for your record and review.

The claims are listed as follows:

75-40 (A15072,a5182) 3 underground water wells
limited to **96.4875 acres**

75-60 (A17957,a4192,a5181) 3 underground water wells
limited to **160.00 acres**

75-61 (A17958,a5118) 3 underground water wells
limited to **100.00 acres**

75-1022 (Diligence) Willow Creek
limited to **160.00 acres, 1 family, 310 ELU**

75-1425 (A15072a,a5117) 3 underground water wells
limited to **98.10 acres**

TOTAL OF 614.5875 ACRES OF IRRIGATION, 1 FAMILY, & 310 ELU

Your exhibit "A" describes a water user claim 75-1002, which is in error. The correct number is 75-1022 as shown on the attached printout. We hope that this response will answer your questions. If you have any additional problems or questions concerning the attached information please contact our office for assistance.

Yours truly,

Gerald W. Stoker, P.E.
Regional Engineer
